# CONTENTS

Foreword (Alasdair Whittle) .....	5
Preface .....	14
Acknowledgements .....	16
<b>1. Introduction .....</b>	<b>17</b>
1.1. A short introduction to the subject .....	17
1.2. Aims .....	18
1.3. Chronological and spatial framework of the study .....	20
1.4. Sources analysed and used for comparison .....	21
<b>2. An outline of the history of research into Neolithic chipped stone industry in central Europe, with an emphasis on the origin of LBK chipped industry and its links to the local Mesolithic .....</b>	<b>25</b>
<b>3. The beginnings of the Neolithic in central Europe .....</b>	<b>31</b>
3.1. Basic models of the Neolithisation of south-eastern and central Europe .....	31
3.2. The origin of the LBK .....	34
<b>4. The Early Neolithic settlement of Moravia and Lower Austria against the central European background .....</b>	<b>37</b>
4.1. The geographic spread of the LBK and its relationship to neighbouring cultures .....	37
4.2. The geographic distribution of the LBK in Moravia and Lower Austria .....	39
4.3. Relative chronology of the LBK in Moravia and Lower Austria (after R. Tichý) and a general overview of dating in neighbouring regions .....	41
4.4. Absolute chronology of the LBK on the basis of C <sup>14</sup> dating .....	41
4.5. The problem of Late Mesolithic settlement in Moravia, Lower Austria and neighbouring regions .....	41
<b>5. Stone raw material used by the early farming communities of Moravia and Lower Austria and its provenance .....</b>	<b>44</b>
5.1. Silicites .....	44
5.1.1. Krumlovský Les chert .....	44
5.1.2. Moravian Jurassic cherts .....	45
5.1.2.1. Stránská skála chert .....	46
5.1.2.2. Olomučany chert .....	46
5.1.3. Erratic silicites .....	47
5.1.4. Krakow Jurassic silicite .....	47

5.1.5. Chocolate silicite .....	48
5.1.6. Spotted Świeciechów silicite .....	48
5.1.7. Radiolarites .....	48
5.1.7.1. Slovak and Polish radiolarites .....	49
5.1.7.2. South Moravian radiolarites .....	49
5.1.7.3. Mauer radiolarite .....	49
5.1.7.4. Szentgál, Hárskút and Úrkút-Eplény radiolarites .....	49
5.1.8. Spongolite .....	50
5.1.9. Limnosilicite .....	50
5.1.10. Abensberg-Arnhofen striped tabular chert .....	51
5.1.11. Banat silicite .....	51
5.2. SiO <sub>2</sub> minerals .....	51
5.2.1. Siliceous weathering products of serpentinites .....	51
5.2.2. Rock crystal .....	52
5.2.3. Quartz .....	52
5.3. Natural glasses .....	52
5.3.1. Carpathian obsidian .....	52
5. 4. Clastic silicic rocks .....	53
5. 4.1. North-west Bohemian quartzites .....	53
5.4.1.1. Skršín quartzite .....	53
5.4.1.2. Bečov quartzite .....	53
5.4.1.3. Tušimice quartzite .....	53
<b>6. The chipped stone industries of the Early Neolithic communities of Moravia and Lower Austria</b> <b>(see Appendix) and their comparison with the lithic industries of selected regions .....</b>	<b>57</b>
6.1. Raw material .....	57
6.1.1. The early phase of the LBK and its comparison to the Mesolithic .....	57
6.1.2. The end of phase I and the middle phase of the LBK .....	62
6.1.3. The late phase of the LBK and the Middle Neolithic .....	64
6.2. Production of blanks .....	65
6.2.1. The technique of regular blade production .....	65
6.2.1.1. The use of experimental archaeology .....	68
6.2.2. Blank production in the early phase of the LBK in comparison with that in the Mesolithic and in neighbouring regions .....	71
6.2.3. Blank production at the end of phase I and the in the middle phase of the LBK .....	79
6.2.4. Blank production in the late phase of the LBK .....	83
6.3. Tools .....	84
6.3.1. Endscrapers and truncated blades .....	84
6.3.1.1. Blades with ventral truncation .....	85
6.3.2. Transversal and other burins .....	87
6.3.3. Laterally retouched blades .....	88
6.3.4. Borers, perforators and becs .....	88
6.3.5. Notches and denticulates .....	90
6.3.6. Trapezes and trapezoidal shapes .....	91
6.3.7. Segments .....	95
6.3.8. Splintered pieces (cores and tools) .....	96
6.3.9. Hammerstones .....	97
6.3.10. General tool characteristics .....	97
6.4. Artefacts with gloss .....	98
6.5. The interpretation of the studied sites based on analyses of the chipped stone industry .....	99

6.5.1. Producer and consumer settlements and raw material exploitation sites	99
6.5.1.1. Comparisons with the Starčevo and Körös cultures	103
6.5.2. The localisation of raw material processing: in what form did raw materials reach settlements?	103
6.5.3. The procurement of stone raw material: a summary of the problems	106
<b>7. The mechanisms of stone raw material distribution in Moravia, Lower Austria and neighbouring regions</b>	<b>111</b>
7.1. The main factors influencing the form of the distribution network in the Mesolithic and Neolithic	111
7.1.1. Environmental factors	111
7.1.2. Subsistence factors	112
7.1.3. Socio-political factors	113
7.1.4. Mythological (symbolical) factors	115
7.2. The distribution of some stone raw materials in the Mesolithic and Neolithic	117
7.2.1. Szentgál, Hárskút and Úrkút-Eplény radiolarites (Transdanubian radiolarites)	118
7.2.2. Mauer radiolarite	110
7.2.3. Krumlovský Les chert	121
7.2.4. Olomučany chert	124
7.2.5. Krakow Jurassic silicite	125
7.2.6. Erratic silicites	128
7.2.7. Siliceous weathering products of serpentinites	130
7.2.8. Spotted Świeciechow silicite	131
7.2.9. Chocolate silicite	132
7.2.10. Carpathian obsidian and Banat silicite	134
7.2.11. Bavarian Abensberg-Arnshofen striped tabular chert	138
7.2.12. Skršín, Tušimice and Bečov quartzites (North-west Bohemian quartzites)	139
7.3. Spongolite – a raw material used in the Mesolithic, but not in the LBK	141
7.4. Characteristics of the raw material distribution in the Mesolithic and Neolithic – a palaeohistorical framework	141
7.4.1. The Mesolithic	141
7.4.2. The Early Neolithic	142
7.4.3. The end of LBK phase I and the middle phase of the LBK	143
7.4.4. The Middle Neolithic and the Late Neolithic	144
<b>8. Talking stones: the chipped stone industry in Lower Austria and Moravia and the beginnings of the Neolithic in Central Europe (LBK), 5700-4900 BC</b>	<b>156</b>
<b>9. Conclusion</b>	<b>165</b>
Appendix	169
<b>10. Theoretical basis and methodology</b>	<b>171</b>
10.1. Chipped stone industry as an archaeological resource	171
10.2. Morphological analysis	171
10.2.1. Fundamentals of the classification of chipped stone artefacts	172
10.2.1.1. Selection criteria for chipped stone artefacts	172
10.2.2. Classification system for analysing LBK chipped stone industry in Moravia and Lower Austria	172
10.2.3. Basic morphological categories – glossary of basic terms	176
10.2.3.1. Pre-cores and cores	176
10.2.3.2. Flakes and waste	177
10.2.3.3. Blades and blade fragments	177
10.2.3.4. Tools	177

10.2.3.4.1. The splintered pieces – tools or cores? .....	178
10.2.3.5. Other basic definitions .....	179
10.3. Raw material analysis .....	179
10.3.1. The macroscopic method .....	179
10.3.2. The microscopic method .....	180
10.4. Statistical analysis of the material .....	180
<b>11. The results of the raw material, technological and typological analyses of the chipped stone industry in Moravia and Lower Austria .....</b>	<b>181</b>
11.1. List of evaluated sites .....	181
11.2. Asparn an der Zaya – Schletz (Mistelbach district, Weinviertel, Lower Austria) .....	182
11.2.1. Background information .....	182
11.2.2. Dating the site .....	182
11.2.3. Chipped stone industry .....	182
11.2.3.1. Nearest outcrops of appropriate raw materials .....	183
11.2.3.2. Raw material .....	183
11.2.3.3. Pre-cores and cores .....	184
11.2.3.4. Flakes and waste .....	184
11.2.3.5. Blades and blade fragments .....	185
11.2.3.6. Raw material transport .....	186
11.2.3.7. Tools .....	187
11.2.3.8. Artefacts with sickle gloss .....	187
10.2.3.9. Summary .....	187
11.3. Brunn am Gebirge, position “Wolfholz“ (Mödling district, Wienerwald, Lower Austria) .....	190
11.3.1. Background information .....	190
11.3.2. Dating the site .....	190
11.3.3. Chipped stone industry .....	191
11.3.3.1. Nearest outcrops of appropriate raw materials .....	191
11.3.3.2. Chipped stone industry at the settlements of Brunn IIa, Brunn IIb and Brunn IV .....	191
11.3.3.2.1. Raw material .....	192
11.3.3.2.2. Pre-cores and cores .....	193
11.3.3.2.3. Flakes and waste .....	193
11.3.3.2.4. Blades and blade fragments .....	193
11.3.3.2.5. Tools .....	194
11.3.3.2.6. Artefacts with sickle gloss .....	194
11.3.3.3. Chipped stone industry from the settlement of Brunn I .....	195
11.3.3.3.1. Raw material .....	195
11.3.3.3.2. Brief morphological analysis .....	195
11.3.3.4. Chipped stone industry from settlement burials at Brunn II .....	197
11.3.3.5. Summary .....	197
11.4. Kleinhadersdorf, position “Marchleiten“ (Mistelbach district, Weinviertel, Lower Austria) .....	199
11.4.1. Background information .....	199
11.4.2. Dating the site .....	199
11.4.3. Chipped stone industry .....	199
11.4.3.1. Nearest outcrops of appropriate raw materials .....	199
11.4.3.2. Raw material .....	199
11.4.3.3. Pebbles, pre-cores and cores .....	200
11.4.3.4. Flakes and waste .....	200
11.4.3.5. Blades and blade fragments .....	200
11.4.3.6. Tools .....	201

11.4.3.7. Appearance and function of trapezoidal forms .....	201
11.4.3.8. Artefacts with gloss .....	201
11.4.3.9. Summary .....	201
11.5. Mold I (Horn district, Waldviertel, Lower Austria) .....	202
11.5.1. Background information .....	202
11.5.2. Dating the site .....	202
11.5.3. Chipped stone industry .....	203
11.5.3.1. Nearest outcrops of appropriate raw materials .....	203
11.5.3.2. Raw material .....	203
11.5.3.3. Pre-cores and cores .....	203
11.5.3.4. Flakes and waste .....	203
11.5.3.5. Blades and blade fragments .....	204
11.5.3.6. Raw material transport .....	204
11.5.3.7. Tools .....	204
11.5.3.8. Artefacts with sickle gloss .....	205
11.5.3.9. Summary .....	205
11.6. Rosenburg I (Horn district, Waldviertel, Lower Austria) .....	206
11.6.1. Background information .....	206
11.6.2. Dating the site .....	207
11.6.3. Chipped stone industry .....	208
11.6.3.1. Nearest outcrops of appropriate raw materials .....	208
11.6.3.2. Raw material .....	208
11.6.3.3. Pre-cores and cores .....	209
11.6.3.4. Flakes and waste .....	209
11.6.3.5. Blades and blade fragments .....	210
11.6.3.6. Raw material transport .....	210
11.6.3.7. Tools .....	210
11.6.3.8. Artefacts with sickle gloss .....	210
11.6.3.9. Summary .....	210
11.7. Brno-Ivanovice, position “Globus“ (Brno-city district, south Moravia, Czech Republic) .....	211
11.7.1. Background information .....	211
11.7.2. Dating the site .....	212
11.7.3. Chipped stone industry .....	212
11.7.3.1. Nearest outcrops of appropriate raw materials .....	212
11.7.3.2. Raw material .....	212
11.7.3.3. Pre-cores and cores .....	213
11.7.3.4. Flakes and waste .....	213
11.7.3.5. Blades and blade fragments .....	214
11.7.3.6. Raw material transport .....	214
11.7.3.7. Tools .....	214
11.7.3.8. Artefacts with sickle gloss .....	214
11.7.3.9. Summary .....	214
11.8. Brno-Nový Lískovec, position “Pod Kamenným vrchem“ (Brno-city district, south Moravia, Czech Republic) .....	214
11.8.1. Background information .....	214
11.8.2. Dating the site .....	215
11.8.3. Chipped stone industry .....	215
11.8.3.1. Nearest outcrops of appropriate raw materials .....	215
11.8.3.2. Raw material .....	216
11.8.3.3. Pre-cores and cores .....	217

11.8.3.4. Flakes and waste	217
11.8.3.5. Blades and blade fragments	217
11.8.3.6. Tools	218
11.8.3.7. Artefacts with sickle gloss	218
11.8.3.8. Summary	218
11.9. Kladníky, position “Záhumenky” (Přerov district, north Moravia, Czech Republic)	219
11.9.1. Background information	219
11.9.2. Dating the site	219
11.9.3. Chipped stone industry	219
11.9.3.1. Nearest outcrops of appropriate raw materials	219
11.9.3.2. Raw material	220
11.9.3.3. Pre-cores and cores	220
11.9.3.4. Flakes and waste	221
11.9.3.5. Blades and blade fragments	221
11.9.3.6. Raw material transport	221
11.9.3.7. Tools	222
11.9.3.8. Artefacts with sickle gloss	222
11.9.3.9. Summary	222
11.10. Kuřim (Brno-country district, south Moravia, Czech Republic)	224
11.10.1. Background information	224
11.10.2. Dating the site	225
11.10.3. Chipped stone industry	226
11.10.3.1. Nearest outcrops of appropriate raw materials	226
11.10.3.2. Raw material	226
11.10.3.3. Pre-cores and cores	227
11.10.3.4. Flakes and waste	227
11.10.3.5. Blades and blade fragments	227
11.10.3.6. Raw material transport	228
11.10.3.7. Tools	228
11.10.3.8. Artefacts with sickle gloss	228
11.10.3.9. Summary	228
11.11. Nové Bránice, position “V končinách” (Brno-country district, south Moravia, Czech Republic)	229
11.11.1. Background information	229
11.11.2. Dating the site	229
11.11.3. Chipped stone industry	230
11.11.3.1. Nearest outcrops of appropriate raw materials	231
11.11.3.2. Raw material	231
11.11.3.3. Pre-cores and cores	231
11.11.3.4. Flakes and waste	232
11.11.3.5. Blades and blade fragments	232
11.11.3.6. Raw material transport	232
11.11.3.7. Tools	233
11.11.3.8. Artefacts with sickle gloss	233
11.11.3.9. Summary	233
11.12. Přáslavice-Kocourovce, position “Na širokém” (Olomouc district, north Moravia, Czech Republic)	233
11.12.1. Background information	233
11.12.2. Dating the site	234
11.12.3. Chipped stone industry	234
11.12.3.1. Nearest outcrops of appropriate raw materials	234
11.12.3.2. Raw material	235

11.12.3.3. Pre-cores and cores	236
11.12.3.4. Flakes and waste	236
11.12.3.5. Blades and blade fragments	236
11.12.3.6. Raw material transport	237
11.12.3.7. Tools	237
11.12.3.8. Artefacts with sickle gloss	237
11.12.3.9. Summary	238
11.13. Těšetice-Kyjovice, position “Sutny“ (Znojmo district, south Moravia, Czech Republic)	240
11.13.1. Background information	240
11.13.2. Dating the site	240
11.13.3. Chipped stone industry	241
11.13.3.1. Nearest outcrops of appropriate raw materials	242
11.13.3.2. Raw material	242
11.13.3.3. Pre-cores and cores	243
11.13.3.4. Flakes and waste	243
11.13.3.5. Blades and blade fragments	243
11.13.3.6. Raw material transport	243
11.13.3.7. Tools	243
11.13.3.8. Artefacts with sickle gloss	244
11.13.3.9. Summary	244
11.14. Vedrovice, positions “Za dvorem“ and “Široká u lesa“ (Znojmo district, south Moravia, Czech Republic)	244
11.14.1. Background information	244
11.14.2. Dating the site	245
11.14.3. Chipped stone industry	247
11.14.3.1. Nearest outcrops of appropriate raw materials	247
11.14.3.2. Chipped stone industry at the settlement of Vedrovice “Za dvorem”	247
11.14.3.2.1. Raw material	247
11.14.3.2.2. Pre-cores and cores	247
11.14.3.2.3. Flakes and waste	247
11.14.3.2.4. Blades and blade fragments	248
11.14.3.2.5. Tools	249
11.14.3.2.6. Artefacts with sickle gloss	249
11.14.3.2.7. Summary	250
11.14.3.3. Chipped stone industry at the settlement of Vedrovice “Široká u lesa”	250
11.14.3.3.1. Raw material	250
11.14.3.3.2. Pre-cores and cores	250
11.14.3.3.3. Flakes and waste	251
11.14.3.3.4. Blades and blade fragments	251
11.14.3.3.5. Raw material transport	253
11.14.3.3.6. Tools	254
11.14.3.3.7. Artefacts with sickle gloss	254
10.14.3.3.8. Summary	254
11.14.3.4. Chipped stone industry at the cemetery of Vedrovice “Široká u lesa”	254
11.14.3.4.1. Raw material	256
11.14.3.4.2. Pebbles, pre-cores and cores	257
11.14.3.4.3. Flakes and waste	257
11.14.3.4.4. Blades and blade fragments	257
11.14.3.4.5. Tools	257
11.14.3.4.6. Artefacts with sickle gloss	258

11.14.3.4.7. Trapezes and trapezoidal shapes in graves and their function .....	258
11.14.3.4.7.1. Function of transverse arrowheads .....	260
11.14.3.4.8. Closing reflections and summary .....	260
11.14.3.4.9. Attempt at a chronological classification of the Vedrovice cemetery based on the analysis of the chipped stone industry and a comparison with other sites .....	262
11.15. Žopy, position “Cihelna“ (Kroměříž district, south Moravia, Czech Republic) .....	263
11.15.1. Background information .....	263
11.15.2. Dating the site .....	263
11.15.3. Chipped stone industry .....	264
11.15.3.1. Nearest outcrops of appropriate raw materials .....	264
11.15.3.2. Chipped stone industry at the settlement of Žopy I .....	264
11.15.3.2.1. Raw material .....	264
11.15.3.2.2. Pre-cores and cores .....	265
11.15.3.2.3. Flakes and waste .....	265
11.15.3.2.4. Blades and blade fragments .....	266
11.15.3.2.5. Raw material transport .....	266
11.15.3.2.6. Tools .....	267
11.15.3.2.7. Artefacts with sickle gloss .....	267
11.15.3.2.8. Summary .....	267
11.15.3.3. Chipped stone industry at the settlement of Žopy II .....	268
11.15.3.3.1. Raw material .....	268
11.15.3.3.2. Pre-cores and cores .....	268
11.15.3.3.3. Flakes and waste .....	268
11.15.3.3.4. Blades and blade fragments .....	268
11.15.3.3.5. Raw material transport .....	268
11.15.3.3.6. Tools .....	268
11.15.3.3.7. Artefacts with sickle gloss .....	269
11.15.3.3.8. Summary .....	269

## Supplement

List of figures 1–44 .....	273
List of tables 1–324 .....	277
Table 323. List of sites shown on maps 5–9 and 14–67 .....	285
Table 324. List of sites shown on maps 10–13 .....	293
List of graphs 1–28 .....	294
List of maps 1–67 (for maps 1–13 see text, 4–67 see DVD) .....	295
Figures 9–44 .....	297
Abbreviations .....	333
Bibliography .....	334
Index .....	351
